LAMBOX CARGO - from 16 700 € net.

Unique design and exceptional load space.

Our LAMBOX comes as standard in an aerodynamic bodykit, which catches the eye wherever you go and, thanks to its aerodynamic parameters, reduces fuel consumption and noise levels inside. The body, made of 28 mm thick sandwich panels, has been integrated into the vehicle cabin to create a direct passage and the roof alcove increases the load space.

With Lambox CARGO, the volume is **22,5 - 27 m³**!

Wide range of options to choose from.

The extensive range of optional equipment includes sliding side doors, double or single rear doors, roller shutters, roof windows, steps, steps, a lift, sensors and reversing cameras, including 360° cameras (ask dealer for details).

Cubic
capacity
up to **27 m³**
